IPA | 2016– 2019
- PIJAR CAMP
FULLSTACK WEB & MOBILE
DEVELOPER | 2023

SANDRI IRAWAN

FULL STACK DEVELOPER

Work Experience

PT BANGSAWAN CYBERINDO |

Oct '23 – Sekarang

Backend Developer

- Designed and developed RESTful APIs using Express.js and NestJS
- Managed databases using PostgreSQL for efficient storage of user, order, and partner data
- Implemented MinIO for file management and storage (e.g., partner documents and transaction proofs)
- Integrated systems using RabbitMQ for asynchronous service communication
- Implemented real-time notifications with WebSocket and Firebase Cloud Messaging (FCM)

PT URSAWHITE TEKNOLOGI

INDONESIA | Apr'24 – Des'24

Freelance Frontend Developer

- Developed mobile applications using React Native
- Identified and responded to technical issues, designing effective solutions to ensure smooth application performance
- Collaborated with the back-end development team and other teams to ensure seamless integration between different parts of the system
